SOFT SKILLS

- Ability to learn and adapt quickly.
- Ability to work with distributed teams.
- Ability to work well under pressure.
- Ability to work remotely

- Self motivated
- Strong communication skills.

WORK EXPERIENCE

Innovation Growth Hub(IGHUB), Aba, Nigeria — Tutor/Mentor.

Mar 2022- till date.

- Trained eligible software developers who partake in building real world projects.
- Worked as coordinator in developing real time web applications..
- Developed code to complete assigned projects by deadline.
- Wrote, modified existing packages/modules to assist complete assigned projects.
- Consumed external third party restfulAPIs using axios.

Innovation Growth Hub(IGHUB), Aba, Nigeria — Trainee/Internship.

Aug 2021- Feb 2022.

During my course of training at Innovation Growth Hub(IGHUB) as a back-end developer, I acquired knowledge on javascript, node.js, express.js and mongodb. Built projects to enhance my skills and knowledge in order to become job ready. Worked with eligible software developers in developing real time web applications and mobile applications by providing needed APIs to accomplish the given task.

Ashpot Cohort Training Institute , Aba, Nigeria— Training/Internship

Feb 2021 - June 2021.

Acquired skills and worked in real time projects such as portfolio websites, company websites and many more with html, css, and bootstrap. Also mentored and impacted knowledge to trainees to attain their goals of becoming software developers.

PROJECTS

Ecommerce Api

Developed functional ecommerce api implementing authentication, authorization and verifications for securing of data, using cryptojs, nodejs, mongodb, expressjs, cloudinary, multer and JWT.

Social Media Api

Developed a restful social media api, by implementing so many features using nodejs, mongodb, expressjs, crypto-js, JWT for securing of data, cloudinary and multer for uploading and saving of images to the database.

Blog Api

Deployed a restful blog api implementing the necessary dependencies to achieve an effective and efficient authenticated api using nodeJs,expressjs, mongodb, crypto.js, JWT, cloudinary and multer.
